

EVOQUA CLARIFIER INSPECTION PROGRAM

Evoqua can provide a complimentary qualified inspection for Envirex® branded AND competitor circular or rectangular clarifiers in order to assess the condition and performance of your equipment. To qualify for a complete inspection, you must be willing to drain and clean your tank. Upon completion of the inspection, a detailed report will be provided including complete documentation of the inspection and recommendations for rehabilitation, upgrades or replacement.

3 Reasons to Consider a Clarifier Inspection:

- 1) You are experiencing degraded clarifier performance.
- 2) Your clarifier is approaching 20-years of service or more.
- 3) You are planning to drain and clean your tank(s) for scheduled maintenance.

Contact your Evoqua representative or call Evoqua directly at 1-800-524-0141 to schedule your complimentary clarifier inspection. There's no better way to assess the condition and performance of your clarifier.
